"I just wanted to say thank you for everything you did for the IM yesterday; although I was not able to make it I have had very positive feedback about you and the way the meeting was organised. I got a good feeling about the company from speaking with you at the start, so I'm glad my hunch paid off and you came through for me! Hanna has said she would certainly be looking to use you guys again for future meetings, and I would of course do the same."

Experience that shines through

Case study:

- Client:** Envision Pharma Group
- Overview:** Standalone pharmaceutical conference
- Attendees:** 120 delegates
- Location:** Washington, DC
- Brief:** A two-day forum held biannually for existing and new users of the publication planning software. The top 20 pharmaceutical companies in the world were all represented.
- Format:**
- Keynote presentations
 - Meet the expert sessions
 - Software demonstration lab
 - Parallel workshops
 - Poster area
 - In-house and off-site dinners

Overview:

This two-day forum was the fifth event inviting existing users and new users of the publication planning software. The top 20 pharmaceutical companies in the world were all represented by either publications managers or IT managers. The event consisted of keynote presentations, parallel workshops, meet the expert sessions, a poster area and a software demonstration lab.

This event was entirely managed using our Cvent online registration system, and coordinated multi-currency transactions and bookings. There was a record attendance at this year's event, so in a very difficult climate this was an excellent result. The team felt that the detailed communications programme, developed in conjunction with McCullough Moore, had a big part to play in this record attendance.
